

Part 1 - Organisation Units

Create an org. unit hierarchy using the general layout that was presented in the demo; start at the provincial level.
When creating the hierarchy, use your/your groups initials/name in order to identify which org units you have created. An example of this is shown below.
Feel free to provide actual names rather than generic ones more reflective of locations within your context. For example, you could name a facility SND_Alberta Clinic
List the org units that you are creating under the headings with blank space Level 1, Level 2, Level 3 to the right of the example table

Organisation Units Example

Level 2	Level 3	Level 4
SND_Province A	SND_District 1	SND_Hospital 1
		SND_Facility 1
		SND_Facility 2
	SND_District 2	SND_Facility 6
		SND_Hospital 2
		SND_Facility 3
	SND_District 3	SND_Facility 4
		SND_Hospital 3
		SND_Facility 5

User Submission

Level 2 Level 3 Level 4

Part 2 - Organisation Groups and Group Sets

For the second part of the assignment, create the organisation unit groups and group sets. Document what you will create using an outline similar to the one below under the user submission section provided beside the example

Organisation Unit Group Set Example

Group Set	Unit Group	Unit Name
Facility Type	Hospital	SND_Hospital 1
		SND_Hospital 2
		SND_Hospital 3
	Facility	SND_Facility 1
		SND_Facility 2
		SND_Facility 3
		SND_Facility 4
		SND_Facility 5
		SND_Facility 6
